Each kit contains: cryogenic aerosol canisters, single-use applicators, and instructions for use
Contains: Dimethyl ether/Propane/Isobutane/Butane

IMPORTANT RISK AND SAFETY INFORMATION:

Cryo Professional is FLAMMABLE. Keep away from open flame and other potential ignition sources including diathermy or other medical equipment. Use in a well-ventilated area. Consult a pediatrician before use on patients 4 years old and younger. Do not use if uncertain of diagnosis or if there is a possibility of cancer, or on patients with cryoglobulinemia, circulatory issues, or using immunosuppressant medication. Do not spray cryogen directly on skin or when applicator tip is in contact with skin. Avoid eye contact. Use only as a system with the supplied applicators. Freezing may alter skin pigmentation. Avoid freezing of peripheral arteries. Carefully read instructions for use prior to using this product. CAUTION: Federal law restricts this device to sale by and on the order of a licensed healthcare practitioner.
